Weather Key Points

Regional Operations Center

Western Region

Friday, September 2

- A dangerous heat wave will continue building from Southern California through the Central Valley and along many southern and central coastal areas through the Labor Day weekend, persisting through the middle of next week
 - Widespread temperatures of 95-114°F are forecast for inland areas each day, with temperatures well into the 80s and 90s even spreading to central and southern coastal areas. Temperatures in the 90s to around 100°F are expected to extend into northeastern California
 - Warm overnight low temperatures in the 70s and 80s, and even in the 90s for some southern California foothills, will lead to poor recovery and further compound heat risk impacts
 - Cooler temperatures are expected to return to northern California on Wednesday, and to the remainder of the state on Thursday, though areas of moderate to locally high heat risk impacts are possible across the central valley and southern desert areas.
- Fire weather conditions will remain highly elevated for many areas due to the combination of hot and dry weather, despite any widespread strong winds
 - Any new fires could develop and spread quickly given the record-setting nature of the heat and the ongoing drought
 - A period of more widespread gusty winds across far northern California today (Friday) will bring critical fire weather conditions
 - Isolated thunderstorms are also possible over the southern mountains and possibly the southern Sierra today (Friday) through Monday. No significant precipitation is expected but some lightning strikes could occur.

2022 May Monkeypox Virus

On 08/01/22, the Governor proclaimed a State of Emergency to support the State's response to Monkeypox. A copy of the proclamation can be found [here](#).

The California Department of Public Health (CDPH) has activated the Medical and Health Coordination Center (MHCC) at Level 3 (low) in response to the 2022 May Monkeypox Virus event on 05/24/22; and increased the activation to Level 2 on 07/18/22.

- Hours of Operation: Monday to Friday, 0800 hours to 1700 hours until further notice.

2022 September Heat Wave

On 08/31/2022 California moved into Phase II of the Extreme Temperature Response Plan due to the upcoming Labor Day weekend heat wave.

- Phase II actions are taken because of credible predictions by the NWS of excessive heat, cold, or of power disruptions during abnormal weather conditions. During this phase, contact with local agencies and coordination among state agencies increases.
 - Extreme Temperature Response Plan link [here](#).
- Governor Gavin Newsom has proclaimed a State of Emergency to temporarily increase energy production and reduce demand. Link to the proclamation can be found [here](#).
- Please see the attached Situation Summary for information regarding the 2022 September Heat Wave.

COVID-19 SUMMARY

Coronavirus Disease 2019 (COVID-19)

On 03/02/20 at 0700 hours, the Cal OES State Operations Center (SOC) activated in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

SMARTER Plan

On 02/17/22, Governor Newsom unveiled the "[California SMARTER Plan: The Next Phase of California's COVID-19 Response](#)". The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions.
